To Whom It May Concern,

It is my pleasure to recommend Mr. Suliman, who has been completing an internship within the Service Conception et Suivi de Projet (SCSP) of the Organisation internationale de la Francophonie (OIF) from September until December 2025, under my supervision.

Throughout his internship, Basile has been a key contributor to our work supporting the design, follow-up, and evaluation of OIF's projects. His work has combined strong analytical and technical skills with a real sense of clarity and communication.

Basile has played an active role in building and updating dashboards, integrating data from dozens of project reports to produce clear visuals and comparative analyses across member states. He developed country overviews, drawing from macroeconomic indicators, budget data, and development results to give our Secretary General's Cabinet a concise, accessible picture of progress. His ability to structure and visualize complex information has had a direct impact on how our unit shares results internally and externally.

Beyond data work, Basile has shown excellent writing and communication abilities. He has drafted analytical notes and brief summaries that make technical content understandable to a broad audience. He has a perfect mastering of French and English and knows how to adapt the tone to institutional contexts. He also brings creativity to his communication outputs, often suggesting better layouts or formats to make our materials more engaging.

What truly stands out is Basile's curiosity and sense of initiative. He learns fast, anticipates needs, and works with great independence while maintaining constant attention to quality and accuracy. He has built positive relationships with everyone he collaborates with and fully adapted to a multicultural environment. I have no doubt that Basile will bring the same technical precision, creativity, and communication sense to any organization he joins and to any position he takes on. He has my full trust and highest recommendation.

Please don't hesitate to contact me should you need any further information.

Kind regards,

Sandra COULIBALY LEROY
